[Git Hub](#)

-
- I'm a passionate software engineer in the making, skilled in C and Python, with a growing interest in full-stack web development (MERN).
 - I enjoy tackling complex problems through coding and business analytics, always looking for innovative solutions.
 - Alongside that, I'm also exploring the world of entrepreneurship, aiming to use technology to solve real-world challenges and build something impactful.
-

Educational Background

- Pursuing B.Tech CSBS at Br.NGP Institute of Technology with 74%(till 5th semester).
- Higher Secondary at "Vidhya Vikashini Matric Higher Secondary School" with 82% in 2022.
- SSLC at "Vidhya Vikashini Matric Higher Secondary School" with 77% in 2020.

Intern

08/2024-09/2024 Hackup Technologies, Coimbatore, India

- Acquired practical knowledge in network security and vulnerability assessment during cybersecurity internship
- My role involved conducting incident response drills and developing documentation for cybersecurity policies and procedures. Additionally, I collaborated with the IT team to enhance system security and participated in training sessions on ethical hacking techniques. Enhanced understanding of cybersecurity principles
